

# 2021 Resilience Cohort

*For Completing a Community-scale Greenhouse Gas Inventory*

The 2021 Resilience Cohort will provide Indiana cities, towns, and county governments with the resources they need to complete a community-scale greenhouse gas inventory.

**Applications will open in the fall and are typically due by mid-December.**

## Costs

\$200 - \$500 (based on population)

Participants will also need:

- A dedicated staff person to complete the inventory, or
- A dedicated staff person to supervise an intern or Indiana Sustainability Development Program extern, who will complete the inventory.

More information is available at: [go.iu.edu/3imE](https://go.iu.edu/3imE)  
Interested? Contact [eri@iu.edu](mailto:eri@iu.edu) or call 812-856-1730.

## Participation Benefits

- Access to software
- Step-by-step guidance
- One-on-one technical assistance
- Peer-to-peer network development
- Marketing and communications support
- And more

## Optional Benefit

- To support the inventory work, participants will have the opportunity to apply to receive a student extern through the Indiana Sustainability Development Program: <https://sustain.iu.edu/research/isdp/index.html>

*Completing a GHG inventory is a fundamental first step for a city or county committed to reducing carbon emissions and increasing energy efficiency.*
